

**REMARKS**

The foregoing amendment and the following arguments are provided generally to impart precision to the claims, by more particularly pointing out the invention, rather than to avoid prior art.

Claims 1-26 are from the original patent. In response to the restriction requirement mailed December 7, 2006, previously added claims 27-40 and 74-76 were canceled. Claim 50 is canceled. Thus, claims 1-26, 41-50 and 52-73 are pending in the application.

Previously filed amendments to the specification are presented to amend relative to the issued patent, as required by 37 C.F.R. 1.173.

A statement of Status of Claims and Support in accordance with 37 C.F.R. 1.173(C) is filed as a separate paper.

The application is believed to be in condition for allowance. Accordingly, reconsideration of the application and allowance thereof is courteously solicited. Should the Examiner need to contact the undersigned, please do so at (650)328-8500.

Respectfully submitted,

Date: March 26, 2008
